### **COMPLAINT**

#### **COUNT ONE:** (James Doe, as to defendant Wilton Board of Education)

1. Prior to bringing this action, the minor plaintiff James Doe PPA Mother Doe and Father Doe sought and obtained an *ex-parte* Order pursuant to Practice Book § 11-20A(h) from the Superior Court of Connecticut, Judicial District of Stamford/Norwalk at Stamford, granting permission for the use of the pseudonyms “James Doe,” “Mother Doe” and “Father Doe,” for the purposes of serving, filing and prosecuting the present action.

2. At all times relevant to plaintiff’s claims in this complaint, James Doe was and is a minor resident of the State of Connecticut who lived and lives with his parents in the Town of Wilton, Connecticut. James Doe’s parents, Mother Doe and Father Doe, bring this action on his behalf.

3. During the 2013-14 school year, James Doe was four and five years old, disabled, and a preschool student at the Miller-Driscoll School (“Miller-Driscoll”), a public school located in Wilton,

Connecticut, which provided public educational services to residents of the Town of Wilton, Connecticut, including to students in preschool through second grade.

4. At all relevant times, defendant Wilton Board of Education (“WBOE”) employed administrators, teachers, and staff to provide educational services at Miller-Driscoll, and WBOE was legally responsible for any acts and omissions of WBOE’s agents, employees and/or the staff performed during the course of employment or agency and affecting the safety and well-being of Miller-Driscoll students.

5. At all times relevant to plaintiff’s claims in this Complaint, employees and representatives of the WBOE, including the Director of Miller-Driscoll, Dr. Fred Rapczynski, other staff working at Miller-Driscoll (the “Miller-Driscoll staff”) and in the WBOE Human Resources department were employees or agents of WBOE, acting in the scope of their employment or agency with WBOE and in furtherance of the interests of WBOE.

6. Sometime before 2013, Eric Von Kohorn (“Von Kohorn”) applied for a position as a paraprofessional to work with preschool students in the Miller-Driscoll School in Wilton, Connecticut.

7. As part of reviewing Von Kohorn’s application for employment, the WBOE had a nondiscretionary obligation to assess whether Von Kohorn was properly qualified, truthful and competent to work in this role with preschool students. Accordingly and pursuant to such obligation,

the WBOE evaluated Von Kohorn and determined he was properly qualified, truthful, and competent to safely work in a position of preschool paraprofessional.

8. As a result, at all times relevant to plaintiff's claims, Von Kohorn was employed by the WBOE as a school paraprofessional working with preschool students at Miller-Driscoll.

9. In early January 2013, Dr. Rapczynski, received reports of disturbing conduct by Von Kohorn, arising from his interactions with a female Miller-Driscoll preschool student.

10. More specifically, the student's parents informed Dr. Rapczynski in early January 2013 that their daughter, a 4-year-old Miller-Driscoll student, reported that Von Kohorn: (1) had taken her alone into a deserted Miller-Driscoll school bathroom (in direct violation of existing Miller-Driscoll school policies), although she was completely toilet trained and did not require assistance toileting; (2) had inappropriately sexually assaulted her; and, (3) had caused visible physical injuries to her genital area. The female student's parents also informed Dr. Rapczynski that they had personally observed physical injuries to the student's genital area.

11. At the time, Dr. Rapczynski knew that the WBOE and Miller-Driscoll had policies and procedures in place that were designed to protect students and to prevent sexual abuse of Miller-Driscoll students, and that those policies strictly prohibited Von Kohorn from taking preschool students into the bathroom alone and unaccompanied by others.

12. In response to the reports by this preschool student's parents, Dr. Rapczynski in January 2013 informed Von Kohorn of the child's allegations and twice interviewed Von Kohorn to question him about her reports of abuse.

13. During the first of these two interviews, Von Kohorn denied ever taking the student into the bathroom.

14. During the second interview, Von Kohorn admitted he had lied during the first interview, and stated that he had in fact taken the female student alone into the bathroom.

15. In January 2013, Dr. Rapczynski reported the student's allegations, as well as the substance of his two interviews with Von Kohorn, including the fact Von Kohorn had admitted to having taken a female preschool student alone into the Miller-Driscoll bathroom, to the WBOE Human Resources department and to at least one other Miller-Driscoll staff member.

16. As a result, in January 2013, Dr. Rapczynski, others on the Miller-Driscoll staff and the WBOE Human Resources department all knew that: (1) a female preschool student at Miller-Driscoll who was fully toilet-trained and did not require any assistance toileting had reported that Von Kohorn took her alone into the Miller-Driscoll school bathroom and sexually assaulted her; (2) the same student's parents reported seeing physical injuries in her private body areas evidencing such an assault; (3) Von Kohorn initially denied ever taking the girl alone into the bathroom and that his denial was a

lie; and, (4) after being confronted with evidence that he had been untruthful, Von Kohorn eventually admitted he had taken the fully toilet-trained female student alone into the Miller-Driscoll bathroom, in direct violation of WBOE policies designed to prevent sexual abuse of students.

17. Despite this knowledge, Dr. Rapczynski, the WBOE Human Resources department and other representatives of the WBOE negligently failed to take any other steps to investigate whether Von Kohorn had sexually assaulted the female student; never reached any conclusion one way or another about whether Von Kohorn had sexually assaulted the student; failed to discipline or suspend Von Kohorn; and, failed to restrict Von Kohorn or provide any additional monitoring or supervision of Von Kohorn and his contact with Miller-Driscoll students.

18. Dr. Rapczynski reported the incidents to the Department of Child and Family Services (“DCF”), including the fact that his own investigation “did not support the girl’s claims.” DCF informed Dr. Rapczynski within a few days of his reports that it was not performing its own investigation of the allegations. As a result, Dr. Rapczynski and WBOE knew that there was no DCF investigation into the allegations of child sexual abuse of the female Miller-Driscoll student by Von Kohorn.

19. After learning of the allegations of sexual assault by the female preschool student and Von Kohorn’s own admission that he had violated school policy in taking the female student alone into

the school bathroom and then lied about it, Dr. Rapczynski, the WBOE Human Resources department and/or other WBOE staff reassigned Von Kohorn to a different classroom, where they knew he would continue working closely with other Miller-Driscoll preschool students.

20. Although WBOE did no further investigation and did not reach a conclusion about whether Von Kohorn had sexually assaulted the female pre-school student, WBOE permitted Von Kohorn to remain employed by WBOE as a preschool paraprofessional having close contact with preschool students throughout the entire 2013-14 school year, during which time Von Kohorn was permitted to work closely with James Doe.

21. James Doe was a Miller-Driscoll student who presented with disabilities while he attended Miller-Driscoll during the August-December 2013 and January-June 2014 semesters.

22. Throughout the school days during both of these semesters, James Doe had close contact with Von Kohorn at Miller-Driscoll.

23. Throughout both of these semesters, Miller-Driscoll staff members and authorized agents and/or employees of WBOE, including Dr. Rapczynski, staff in the WBOE Human Resources department and other WBOE staff, knew or should have known that James Doe, a disabled Miller-Driscoll preschool student who had frequent contact with Von Kohorn, was an identifiable victim who faced the threat of imminent harm from contact with Von Kohorn, a known alleged sexual abuser.

24. Throughout both of these semesters, Miller-Driscoll staff members and authorized agents and/or employees of WBOE, including Dr. Rapczynski, staff in the WBOE Human Resources department and other WBOE staff, knew or should have known that James Doe's close contact with Von Kohorn, a known alleged sexual abuser, could be reasonably calculated to cause James Doe the threat of serious bodily injury.

25. Nonetheless, throughout both of these semesters, Miller-Driscoll staff members, as well as other authorized agents and/or employees of WBOE, including Dr. Rapczynski, staff in the WBOE Human Resources department and other WBOE staff, negligently placed James Doe, an identifiable victim, under the threat of imminent harm by encouraging and permitting Von Kohorn to have regular, direct contact with James Doe.

26. Throughout both semesters of the 2013-14 school year, Von Kohorn groomed, sexually exploited, abused, assaulted, and injured James Doe at Miller-Driscoll, resulting in significant physical injury to James Doe.

27. Throughout both semesters of the 2013-14 school year, Dr. Rapczynski, the WBOE Human Resources department and/or other WBOE staff failed to act with reasonable care, placing the identifiable victim James Doe under threat of imminent harm, and also breached their nondiscretionary obligations, by:

- a) failing to follow established school policies and procedures designed to prevent child sexual abuse at Miller-Driscoll School;
- b) failing to take reasonable steps to ensure a safe and secure learning environment for James Doe;
- c) failing to take reasonable steps to prevent Von Kohorn from grooming, assaulting, exploiting and otherwise abusing James Doe;
- d) failing to reach a conclusion regarding whether Von Kohorn had sexually assaulted the female preschool student before placing Von Kohorn in contact with other preschool students, including James Doe;
- e) failing to take reasonable steps to prevent Von Kohorn's continued access to and daily contact with Miller-Driscoll preschool students, including James Doe, thereby placing James Doe under threat of imminent harm;
- f) failing to take reasonable steps to investigate and remove Von Kohorn from contact with James Doe, despite having reason to believe Von Kohorn posed an imminent threat to the well being of James Doe;

- g) failing to take reasonable steps to terminate, discipline, or properly monitor and supervise Von Kohorn after he was suspected of sexually abusing a female preschool student; and,
- h) failing to properly and timely inform James Doe's parents of Von Kohorn's alleged sexual abuse of the female student in the bathroom.

28. In addition, Dr. Rapczynski, the WBOE Human Resources department and/or other WBOE staff failed to act with reasonable care, placing the identifiable victim James Doe under threat of imminent harm, and breached their mandatory and nondiscretionary obligations, by failing to take reasonable steps to ensure he was a qualified, truthful, competent and safe candidate to be working closely with preschool students, including James Doe.

29. As a result of the negligence of Miller-Driscoll staff members, as well as other authorized agents and/or employees of WBOE, including Dr. Rapczynski, staff in the WBOE Human Resources department and other WBOE staff, WBOE and Miller-Driscoll staff members, James Doe suffered physical injuries and serious and permanent damages, as well as extensive permanent emotional and psychological injuries flowing directly from the physical injuries and abuse he suffered.

30. As a further result of the negligence of Miller-Driscoll staff members, as well as other authorized agents and/or employees of WBOE, including Dr. Rapczynski, staff in the WBOE Human

Resources department and other WBOE staff, WBOE and Miller-Driscoll staff members, James Doe has suffered and will continue to suffer significant loss in the enjoyment of his life's activities.

31. As a further result of the negligence of Miller-Driscoll staff members, as well as other authorized agents and/or employees of WBOE, including Dr. Rapczynski, staff in the WBOE Human Resources department and other WBOE staff, WBOE and Miller-Driscoll staff members, James Doe has suffered and will continue to suffer a broad array of trauma-specific sequelae of his sexual abuse and exploitation, which are likely to require treatment and therapy over the course of his lifetime.

**COUNT TWO:** (James Doe, as to defendant Town of Wilton)

1 – 31. Paragraphs 1- 31 of Count One are here incorporated and made paragraphs 1- 31 of this Count Two.

32. At all relevant times, the WBOE, by and through the acts and omissions of staff members, authorized agents and/or employees working at Miller-Driscoll, functioned as an arm or agency of defendant Town of Wilton.

33. The Town of Wilton is legally responsible for any damages assessed against the WBOE as a result of the injuries suffered by James Doe.

**AFFIDAVIT OF ANN WOLBERT BURGESS, DNSc.**

I, Ann Wolbert Burgess, DNSc. being duly sworn, depose and state:

1. I have a Master's Degree in Psychiatric Nursing from University of Maryland and a Doctorate Degree in Nursing Science from Boston University. I have been a private practitioner since 1980. Over the years, I have evaluated, treated and/or interviewed hundreds of sexual assault victims, approximately 50% of whom have been children or adolescents. I am also a Sexual Assault Nurse Examiner ("SANE") and am currently a Professor of Psychiatric Nursing at Boston College, where I teach content on the prevention, identification, and treatment of child sexual trauma. I also have taught a program on Sexual Assault Examinations by nurses at Boston College for the past 15 years.

2. I have personally met and evaluated John Doe and his parents. Based on my assessment of John Doe, it is my opinion that John Doe was sexually assaulted and suffered physical injuries, as well as as traumatic emotional injuries flowing directly from his physical assault and sexual abuse he suffered at the hands of Eric Von Kohorn, a paraprofessional at the Miller-Driscoll School in Wilton, Connecticut.

3. My professional opinion is that it is in John Doe's best interests and important to John Doe's well-being that his birth identity be kept private and non-public. In my opinion, publishing John Doe's birth identity or the identity of his family members in publicly available filings in a civil lawsuit at this time would pose a significant threat to his well-being.

4. If John Doe's identity becomes publicly available in court filings, John Doe would be at risk of further injury and victimization. John Doe is physically and intellectually disabled, and therefore more vulnerable than many children to the impact of being retraumatized, including by others asking him about his abuse or its impact on him, which he would not be well-equipped to process. This concern relates to peers or adults who might mention the abuse or its impact on him, even if such inquiries are well-intentioned.

5. In addition, John Doe's disabilities render him at a heightened risk of revictimization if his identity becomes publicly known. Research studies have concluded that children who are sexually victimized can become targets of other abusers and can be vulnerable to revictimization by other opportunistic abusers. Victims of child sexual abuse sometimes are targeted by other abusers once they become publicly identified. John Doe, a young, disabled child, would be particularly vulnerable to those who wish to identify and victimize a sexual abuse survivor.

6. Furthermore, publicly revealing his name could subject John Doe to a powerful negative stigma that could significantly deepen the emotional trauma he has already sustained.

7. In my professional opinion, publicly exposing John Doe's birth identity would pose a threat to John Doe's well-being and would be against his best interests.

8. Accordingly, I believe that allowing John Doe and his family members to pursue civil claims under the pseudonym "John Doe" is important to allow the case to proceed without causing unnecessary but potentially significant additional emotional trauma, intrusion and injury to John Doe.

The foregoing statements and opinions are mine, and are true and accurate, to the best of my knowledge and belief.
